Synopsis

CultureShock! Saudi Arabia provides an insight into living and working in a kingdom where Islam governs almost every aspect of life. Containing valuable information not only on the practical aspects of settling in, this book will give tips on how best to integrate into Saudi society. Learn about Saudi laws and be aware of what might get you thrown in jail or under the executioner's axe. CultureShock! Customer Reviews

Good background information and touches of humour. Some of the experiences related were cautionary, and seem extreme after living there, but the cultural advice and good manners were carefully explained - useful for a newcomer to the Middle East.

very interesting but it need to be updated

This book is full of wry humour, and is an easy, enjoyable read. It contains fairly general information, so is likely just the first step of the learning process.

This has been incredibly useful and I will refer to it often. I would recommend this book for anyone traveling to Saudi!

Answers every conceivable question you could possibly have! An absolute necessity for those going to Saudi Arabia!!

Gave as a gift to boyfriend going to Saudi for work even though he cannot leave his compound, it does have some interesting info

I thought many of the examples in the book are blown out of proportion. As such they enflamed rather than informed the prospective traveler to Saudi Arabia. The cartoons seem to promote stereotypes of Arabs that are derogatory. I threw the book out before I entered Saudi Arabia. I did not want anyone to think I'd taken such a book seriously.

It is so far a very informative read. It seems to be well thought out and well written as well. I'm several chapters in and it's been very helpful in my adjusting process.
