Grade Level: 1 - 2

Customer Reviews

After working as an editor for several major children's book publishers, Joanne Mattern became the author of numerous nonfiction books for kids. She especially loves writing about animals, sports, and interesting people and places.

A little pricey for such a thin booklet...But my 7th grade boys were very drawn to it. Not much of a bibliography, mostly a book of stats. Good for die-hard sports fans and struggling readers.

When it comes to reading about or watching LeBron James and the Miami Heat, my grandson loves it. Also, I like to buy the used books, because I am (in a sense) recycling.

My grandson loves basketball. In an effort to increase his love for reading, I purchased several basketball themed books for him. It seems to be working!

Slim and quick. This was a holiday gift for my son and a quick read for a fan that is not much of a reader :-))I also purchased a video... just incase *wink*

It was for a younger child than I had hoped! My grandson is a huge fan and he is 13. He likes it but not what I had expected!

My students love reading about Lebron James! This book was well done.
