Eric Braun has written more than one hundred books for kids and teens, including many about sports. He coaches youth baseball and soccer, has two sports-loving sons, and has suffered many disappointments as a lifelong fan of the Minnesota Twins. I am an illustrator, designer, and cartoon character. I live in Philly P.A. and have for my entire life. Philadelphia has helped to inspire my art and I love it here. Most my time is spent creating new worlds and life through the wave of a brush and the spreading of ink.

Cute book!

I am studying to be a teacher, and this summer I am volunteering at a summer program. I put this book out on our book table as an option for our kids (mostly ELL students) to read. The kids loved

this book! The pictures and diagrams really gave them enough context clues, and the characters really drew the kids into picking this book up and learning about simple machines! I really wish that there was a bundle option for buying the nonfiction science books by Eric Braun.
